SUMMARY

Software Engineer with 2+ years in data engineering & analytics, ETL, data visualization and React.js. Skilled in Microsoft Fabric, Azure Data Factory, Databricks, Power BI, T-SQL. Microsoft Fabric certified Data Engineer & Analyst, delivering scalable, data-driven solutions.

EXPERIENCE

Software Engineer 1 • MAQ Software • Hyderabad

July 2023 – Present

- Designed and developed **scalable data pipelines** using **Azure Data Factory** and **Databricks**, reducing processing time by **30%** through automation and optimization.
- Created **Power BI dashboards** with **advanced visuals** and **interactive elements**, improving reporting efficiency and reducing manual effort by **40%**.
- Implemented complex **T-SQL queries** for data transformation and validation, improving query performance by **25%**.
- Automated **ETL workflows** using **Azure Databricks jobs**, ensuring timely and efficient pipeline execution.
- Delivered **end-to-end analytics solutions** using **Microsoft Fabric**, accelerating decision-making by **35%** and aligning output with business goals.
- Managed the complete **project lifecycle**, including **client interactions**, requirement gathering, development, deployment, and received **multiple appreciations** for consistently delivering **high-impact solutions ahead of deadlines**.

Associate Software Engineer • MAQ Software • Noida

January 2023 - June 2023

- Developed **responsive** and **dynamic user interfaces** using **React.js**, improving **user engagement by 20%** through enhanced user experience across multiple devices.
- Integrated **frontend applications** with **backend APIs** and **Azure services**, reducing **data load times by 30%** and enabling **real-time data interaction**.
- Implemented **modern UI/UX practices** and **component-based architecture**, increasing **web application scalability** and reducing **maintenance time by 25%**.
- Collaborated with **cross-functional teams** to deliver **feature-rich web solutions**, accelerating **development cycles** and ensuring alignment with **business requirements**.

PROJECT

Q-Routing in 3D Multiple NoC

National Institute of Technology Raipur • August 2022 - November 2022

- Simulated the **Q-Routing algorithm** in a 3D **Network-on-Chip (NoC)** architecture using **Garnet** and **Gem5 simulators** to optimize on-chip communication.
- Achieved **20X faster** performance compared to traditional 2D routing by mitigating network congestion and improving overall efficiency.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

National Institute of Technology Raipur • Raipur • 2023 • 8.76 CGPA

CERTIFICATIONS

Microsoft Certified: Fabric Data Engineer Associate

Microsoft • 2025

- Built **robust data pipelines** using **Microsoft Fabric Data Factory** and **Pipelines**, automating **90% of data ingestion and dump processes**.
- Managed and optimized **Lakehouse** and **Warehouses** in **OneLake**, improving **query performance by 40%** and ensuring **scalable data architecture**.

Microsoft Certified: Fabric Analytics Engineer Associate

Microsoft • 2024

- Streamlined **end-to-end analytics workflows** using **Microsoft Fabric** for faster **data integration, modeling, and reporting**.
- Applied **advanced DAX** and **semantic modeling** to build optimized **Power BI reports** aligned with business needs.
- Created **dynamic and interactive dashboards** using **Power BI**, enabling real-time **insights** and reducing manual reporting efforts by **40%**.

SKILLS

- **Data Engineering:** Proficient in **SQL**, **data modeling**, **ETL/ELT**, and data warehousing.
- **Big Data:** Experience with **PySpark**, and **Hadoop** for large-scale data processing.
- **Cloud Platforms:** Hands-on with **Azure (Data Factory, Databricks, Data Lake, Fabric)**; currently learning **AWS** and **GCP**.
- **Databases:** Strong in **SQL**, **T-SQL**.
- **BI & Visualization:** Skilled in **Power BI**, **DAX**, and data modeling for interactive dashboards.
- **Programming:** C, C++, Python, JavaScript, TypeScript.
- **Tools & DevOps:** Visual Studio, SSMS, GitHub, Azure.
- **CS Fundamentals:** DS & Algos, OOP, DBMS, OS, Networking.
- **Soft Skills:** Strong in problem-solving, communication, time management, and ownership.
